

## PUBLIC NOTICE

# INTRODUCTION OF TARIFF SPECIFICATION CODES (TSCs) ON MOTOR VEHICLES IMPORTED FROM NON-SACU COUNTRIES

Importers and Customs Clearing and Forwarding Agents are informed of the introduction of the Tariff Specification Codes (TSCs) which are to be used when declaring motor vehicles in the ASYCUDAWorld, with effect from **23rd March, 2020**.

The TSCs are necessary because they provide additional descriptive information such as the year of manufacture, model and any other details that will assist in uniquely identifying the motor vehicles being declared.

A detailed guideline on this subject can be obtained by visiting the SRA website at **[www.sra.org.sz](http://www.sra.org.sz)**.
